ACADEMICA
DUAL DIPLOMA™

Come and meet with us!

In Ombrosa, we guide children towards their fulfillment and accomplishment throught the development of their thinking, experience and desire to move forward.

The team of directors, coordinators (languages, stays abroad, vis scolaire, maths, sciences...), teachers of different levels and subjects, extracurricular supervisors and club coachs are happy to welcome you on site to share their expertise and committment to answer any question you may have, and discuss your educational project for your children.

Our pluricultural and professional teams daily welcome on campus children of 58 different nationalities, from Nursery up to High School, in an enviroment and with dynamics specific to each age and needs.

Nursery

A daily authentic **English-based immersion,** completed by an **exclusive expertise in early bilingualism**, to develop all learnings

Respect of each individual, to find their place in the group, enjoy coming to school **and fully committ in a serene atmosphere**

A positive and structured **environment**, **to thrive and grow with confidence f**rom 2 and a half years old

A **before and after school daycare** both flexible and integrated

Elementaty

Early bilingualism for all, according to their needs. **French and English immersion** through weekly alternation of languages

Proven teaching methods: Singapore math**,** reading, varied educational approaches

Immersive stays abroad in the UK, accessible **from CE1** (Grade 2 Year 3) **onwards**

Daily life in Ombrosa: **clubs** extracurricular activities, outings and **projects**, empathy and **mediation**

Ombrosa is way more than just a school: it is a place where we grow together, open up to the world, build tomorrow.

Middle School

Develop **bilingualism**, learn new languages, share an **international experience**, enjoy opportunities to take part in **immersive stays abroad**

Commit to clubs and vie scolaire activities: (**sports, arts, sciences, culture et society**)

Deepen **academic skills**, but also **learning skills in general**:
thinking, research, social, personal management, communication

Develop profils, via specific methods, courses and **certifications,** support **future prospects**

High School

A personalized guidance, courses and Higher education projects define themselves

French baccalaureate (7 specialized teachings including science), **Dual Diploma**, certificationsup to C2. **International Baccalaureate.**

Developing **skills on all levels:** Deepening, method

Multicultural and welcoming environment. Commitment, **diversity of clubs and projects** (MUN, Band, action climat, sciences, journalisme…)

Come with your family to see our campus!
